

LOW ORBIT, HIGH STATUS

Orbital compute. Interstate ambition.

A FICTIONAL RETREAT PITCH

CUSTOMER DISCOVERY

**“We want
cleaner showers.”**

We heard orbital infrastructure.

OUR ARCHITECTURE

400 km

from the customer

Orbital GPUs / Truck-stop ground stations / Shower queue

We solved the last mile by adding 250 miles vertically.

TECHNICAL RISK

WILL.

Will Heltsley

He can get it into orbit.

Nobody can explain why it belongs there.

Advisor status: within earshot.

THE PRODUCT

Diesel. Gold. Platinum. Divorced.

Airline miles on every fill-up

Priority shower boarding. Complimentary lounge taquitos.

**The satellites are
a customer
acquisition cost.**

Sell miles. Collect fees. Monetize status anxiety.

WHY STARSHIP

LP = Loyalty Points

Your capital is locked up for ten years.
Your shower credits expire Friday.

Frontier technology. Frontier redemption policies.

THE ASK

\$69M

1% engineering

99% convincing people they're Platinum

Exit strategy: Exit 147.
